三月份学习纲要

Dear Parents,

We learned two themes in March: “Parts of the Body” and “Five Senses”.

In the theme of “Five Senses”, we read some books regarding five senses. We learned about taste, sight, touch, smell, and hearing. We let the children do some activities about the theme. We gave children examples to smell, such as oranges. Children also tasted different types of food during breakfast, lunch and snack. Children listened to many types of different sounds and music. We also introduced different sensory objects for the children to touch. We believe children learn most through exploring.

In the theme of “Body”, we learned about head, hand, finger and foot. We used pictures and books to help the children learn the parts of the body. We tried to let the children count their fingers from “One” to “Ten” when they wanted to take turns to play with the toys in the classroom, this also taught them patience.

We created the posters in our classroom that showed the names of five senses and parts of the body as visual materials as well as singing songs and dancing. This can increase children’s memory and interest.

Some of the learning activities include:

- Activities: practiced their sensory skills.
 - e.g. touching & smelling and motor skills.
 - e.g. climbing, walking, running & jumping.
- Reading some books about body parts and the five senses.
- Singing the songs “Head, shoulders, knees and toes”, “小手拍拍”, “If you’re happy and you know it clap your hands” and “ With my heart”.

亲爱的家长们:

在三月份,我们学习的主题是:身体的部份和五种感官。

在学习“身体部份”这个主题里,我们用图片和书籍帮助孩子们学习,还做了一些关于这个主题的美术活动。我们创建了一些关于这个主题的海报,视觉材料和歌舞,鼓励和激发孩子们的学习兴趣。我们学唱了有关这些主题的歌曲,如:“小手拍拍”,“头,肩,膝盖和脚趾”等等。

在学习“五种感官”这个主题里,我们展示一些关于五官的图片给孩子们。我们让孩子们知道五官的名称和运用,还做了一些活动,例如:嗅橙子,听音乐,孩子也品尝到不同类型的食物,我们还用了不同的感官对象,供孩子们触摸,通过这些活动来加强小孩对五官的认识。
