Preschool Class (2) March Newsletter
学前班(2) 三月份学习纲要

Dear Parents,

Hi everyone, in the past month of March, we learned three themes, "I'm Growing Up", "My Body" and "Indoor & Outdoor activities".

Firstly, in the theme of "I'm Growing Up", the children learned about community workers and talked about what career they want to do when they grow up. In addition, through the discussion, the children realized that eating healthy food and doing exercise helps them to grow healthily. In the "Sprouted Potatoes" scientific experiment, the children observed the process of potatoes sprouting and growing into seedlings, and by comparing potatoes with stones, they realized that some things will grow but others will not. After class, they participated in the "My Big Foot" game activity. They put on cardboard made bigfoot look-alike slippers, and they walked in the classroom acting up as adults. They had a lot of fun.

Secondly, in "My body" theme, we learned all the body parts, the function of five senses and also, we talked about how to appreciate and take good care of our body. In the class, they learned that we could use five senses to distinguish objects based on the different smells, feelings, sounds and appearances through games. In the science activity of "hands washing experiment", they learned that to love and protect and appreciate their body, they should practice hygiene habits. In spare time, the kids made hand crafts and art projects like "A big & cute face" and "My big body" for better knowing their body parts. During music movement time, they sang and danced with songs like "长高体操"和 "exercise song" to entertain and achieve the goal of exercise their body.

Thirdly, in the theme of "Indoor & Outdoor activities", students learned the simple definition of indoor and outdoor. Through the activities of "Paint the big cardboard house" and "Discovering the inside of the cardboard house", they know the difference between inside and outside. In the class, students participated in the "The Colorful Running Ball" science experiment activity, by using their arms to move the big tray up and down, left and right and let the ball roll and draw on the white paper, they gained the awareness of teamwork. In dramatic play time, students all sat down with the teachers and had an indoor "Picnic on the blanket".

Lastly, students made "Easter baskets" and "Bunny headband" crafts and they joined into the fun "Easter egg hunt" activity to celebrate Easter holiday.

Students learned these themes with happy emotions and great interaction.

亲爱的家长们：

你们好，在过去的三月份里，孩子们在学校里学习了以下的课题。

首先，在《我在成长》这一主题里，孩子们认识了社区工作者，并畅谈了长大后想做什么职业的愿想。另外，通过讨论孩子们认识到健康的食品和加强锻炼可以健康成长的。在“发芽的土豆”科学实验中，孩子们一起观察土豆发芽并长成小树苗的过程，并通过将土豆与石头对比，认识到有的事物会成长，有的事物却不会成长。课后还一起参与了“我的大脚板”游戏活动，孩子们穿上纸板做的大脚板，模仿成年人在教室里步行，其乐无比。

然后，在《我的身体》课程里，学生们一起学习身体各部位，各感官的功能作用如何更好的爱护自己的身体。在课堂上，通过“感知味道”，“感知触觉”和“感知声音”等群体游戏，他们认识到通过感官器官，我们可以根据味道，触觉和声音等来识别不同的物品。在“洗手实验”的科学活动中，他们认识到爱护自己，要从养成卫生好习惯开始。课余时间，孩子们做了“可爱的大脸”和“我的大身体”等手工和艺术作品，来深化学习关于自己的身体。在音乐律动中，孩子们积极的参与到“长高体操”和“exercise song”等歌曲中，通过唱唱跳跳达到娱乐和强壮身体的效果。

其次，在《室内和室外活动》这一主题中，孩子们在一起学习了室内外的简单定义，通过“粉刷大房子”和“纸箱房子内部探索”等课堂活动，孩子们认识了室内和室外的区别。在课堂上，孩子们一起玩“七彩的滚球”小实验活动，通过和同伴上下左右的移动大盘子，从而使彩色球染遍白色的纸上，他们培养了团队的合作意识。在扮演活动中，孩子们和老师一起坐在大大的毯子上玩室内的“户外野炊过家家”。

最后，孩子们在课余时间一起做了“复活节篮子”和“小兔子头环”等手工，并参与“复活节捡蛋”的活动，一起庆祝复活节。

孩子们快乐并积极的完成了以上课程内容的学习。

生词 (New words) :

我的身体部位 wó de shēn tǐ bù wèi 眼睛 yǎn jīng 鼻子 bí zǐ 耳朵 ěr duo 口 kǒu
眉毛 méi máo 美丽的世界 měi lì de shì jiè 有趣的声音 yǒu qù de shēng yīn
